**1.** I am proud to support @CodedBias's declaration of data rights as human rights. Join me in this movement declaring that #datarightsarehumanrights. #CodedBias

**2.** It's really up to us to prioritize human rights and to reign in the power of big tech. Join me and @Cod-edBias in declaring that #datarightsarehumanrights. #CodedBias

**3.** Watched @CodedBias? Join me in supporting the declaration of data rights as human rights. #data-rightsarehumanrights #CodedBias

As artificial intelligence is being used as a gatekeeper to opportunity in employment, healthcare, housing, education, and policing, we, the people of a democracy, refuse to have our liberties limited and opportunities denied by artificial intelligence.

CODED BIAS

# We, the people of a democracy, declare data rights fundamental to civil and human rights.

As artificial intelligence is being used as a gatekeeper to opportunity in employment, healthcare, housing, education, and policing, we, the people of a democracy, refuse to have our liberties limited and opportunities denied by artificial intelligence.

#### We demand the right to restrict how our data is used and limit its sale to third party data brokers.

We demand the right to be informed about who processes, stores, disseminates and receives our data, for how long, and for what purposes. Data collection should always be for a specified, explicit, and legitimate use.

We demand the right to restrict how our data is used and limit its sale to third party data brokers. #DataRightsAreHumanRights #CodedBias We demand the right to access our data from those that have collected it, correct inaccuracies, and, if needed, erase our data.

We have the right to object to the processing of our personal data, biometric data or other sensitive data. Access to basic services and our freedom to move should not be denied to us based on our unwillingness to share our data.

We demand a prohibition on collecting biometric and other special categories of personal data without our affirmative consent. #DataRightsAreHumanRights #CodedBias

We demand a moratorium on the use of racially biased and invasive surveillance technologies like facial recognition by all law enforcement agencies including police, FBI, and ICE.

We the people must democratically determine how these tools are used, and ban uses that breach fundamental civil rights.

CODED BIAS

We demand a moratorium on the use of racially biased and invasive surveillance technologies like facial recognition by all law enforcement agencies - including police, FBI, and ICE.

We refuse for other people's data to be used to make assumptions about who we are and to discriminate against us by association.

CODED BIAS

We demand algorithmic systems be vetted for accuracy, bias, and non-discrimination, evaluated for harms and capacity for abuse, and subject to continuous scrutiny.
